

Human Amyloid Imaging Conference (HAI) (January 15-17, 2020)

The 14th Human Amyloid Imaging will take place in Miami, Florida on January 15-17, 2020. Attendees will have the opportunity to review the basic, fundamental principles of amyloid and tau PET imaging, including radiochemistry and radio-tracer synthesis, PET acquisition and data processing, including application of corrections for the partial volume effect and co-registration with structural data.

A total of 6 AMYPAD abstracts have been accepted (5 posters and 1 oral presentation) at the Human Amyloid Imaging Conference.
